CONTENTS

PROPOSAL FOR SAFETY

Being Sincere

Kazunori Kuwana 141

REVIEW

Current Status and Issues of Industrial Safety in Japan

Satoshi Shoda 142

Risk Tolerance -How do you decide if a risk is too high?-

DW Jones and Walt Frank 145

Post-corona and Process safety

Hideki Matsuo 154

Countermeasures to Troubles Caused by Outside Accidents. (Earthquake, Heavy-rain, etc)

*Higashi Ito, Terushige Ogawa, Masamitsu Tamura, Masahide Wakakura,
Haruki Nishi, Hiroki Takeuchi, Eigai Hamada and Hiroshi Shimodaira* 160

Current Status on Chemical Assessment and Simulation using Dispersion Model in Response to
Disaster and Accident Events

Kyoko Ono 168

Policy for Implementation of AI in Petroleum and Petrochemical Plants

*High Pressure Gas Safety Office, Industrial and Product Safety Policy Group,
Ministry of Economy, Trade and Industry* 175

ORIGINAL PAPER

Experimental Study on Development of Portable Electrostatic Ground Tester

Yuki Osada, Teruo Suzuki and Kwangseok Choi 183

Study on Ignition Characteristics of Kerosene Mist

Yuta Endo and Kwangseok Choi 191

TECHNICAL REPORT

How to use Accident Informations for your Company's Safety

-Contribution of Risk Assessment for Accident Prevention (2) -

Masayoshi Nakamura 198

SAFETY MANAGEMENT AND PROVISIONS IN THE CORPORATION

SHOWA YOKKAICHI SEKIYU CO.,LTD. PSM Implementation and the Operation of
Element Leaders Organization

Yoshiyuki Yoshioka 209

SALOON

Compelling Reason why a Citizen has to face Engineering

Shuichi Munakata 218
